On my trip to Peru in Spring break of 2012 I saw many interesting, cool, and/or beautiful things as part of GE 207. Unfortunately this is only a sample of some of my favorite pictures that I took.

Above is part of the city of Cuzco. It is the capital of the Cuzco region or Peru.
Things of Interest

Interesting and beautiful sites - Machu Pichu

Fascinating geology - granite slides formed by glacier movement
Beautiful flora-
*Schinus molle/
*Peruvian Peppercorn

Amusing fauna - alpaca
More sites

Sacsayhuaman

A water temple
A watchtower built to protect Cuzco from the peoples from the jungle regions

Tipon
Granaries at Ollantaytambo

One of the many rockslides we saw. This one was at Ollantaytambo
Palacio Gobierno in Lima

Terraces of Moria built in a sinkhole to make microclimates
